DIRECTORS' REPORT

The Board of Directors of Al Meezan Mutual Fund Limited (AMMF) is pleased to present the un-audited financial statements of the company for the half year ended December 31, 2009.

Economic Review

Pakistan has shown gradual recovery and improvement on the macroeconomic front in the first half of fiscal year 2010. Average year-on-year inflation during the period eased off to 10.3%, which averaged 24.4% during the same period last year. Release of IMF tranche and improved balance of trade numbers have provided a strong impetus to the economy. As a result, foreign exchange reserves increased from US\$ 11.9 billion in June 2009 to US\$ 13.8 billion at the end of December 2009, which is exclusive of the US\$ 1.2 billion tranche received from IMF at the end of 2009. This helped in stabilizing rupee against US dollar, with the rupee depreciating by 4.3% in the period under review. Moreover, remittance inflows made new records, with the first half fiscal year 2010 figure totaling US\$ 4.5 billion, providing crucial support to the balance of payment situation.

On domestic front, tax collection for the period was approximately Rs. 580 billion, which helped Government of Pakistan limit its borrowing to Rs. 70 billion at the end of December 2009. In view of the declining inflation, State Bank reduced the policy rate by 150bps to 12.5%. Moreover, to meet IMF requirements and to stabilize interest rates, the central bank introduced an interest rate corridor, providing a reverse repo facility at 300bps below the repo rate.

Controlled current account deficit, declining inflation, increasing foreign exchange reserves and improvements in other economic numbers were also acknowledged by International rating agencies as Standard and Poor's upgraded Pakistan's Sovereign rating by one notch to 'B-' and Moody's enhanced its country outlook to 'Stable'.

Equity Market Review

The equity market witnessed a turnaround in the first half ended December 31, 2009 as KSE-100 Index appreciated by 31% or 2,224 points to close the half year at 9,386. This is in sharp contrast to the same period last year when the equity market fell by 52.3%. There was a substantial increase in daily average volume to 172.5 million shares as compared to mere 40.8 million shares in the corresponding period last year during which floor was imposed in the stock market.

At the beginning of the year, uncertainty about the discount rate cut by the Central Bank in the monetary policy statement and late release of IMF tranche caused some concern in the minds of investors and kept market moving at the slow pace. However, it quickly regained its momentum with the discount rate cut, disbursement of IMF tranche and continuous decline in CPI inflation. Later, foreign buying provided impetus to the momentum and made a high of 9,839 in mid of October, 2009.

This momentum was arrested in mid of October as the uncertain law and order situation led to apprehension among investors. Also, on the domestic political front, the uproar from different fronts relating to conditions attached to the Kerry Lugar Bill and later the controversy regarding National Reconciliation Ordinance (NRO) kept the market dull as the focus was diverted from large cap to lower tier stocks and Index dipped below 9,000. However, in the end news about unlocking of NIT LOC units brought about rally in the banking sector and approval of 4th tranche of IMF helped market to close at 9,384 on December 31, 2009. During the same period, KMI-30, the benchmark index, appreciated by 29% to close around 13,754.

Foreign Flows

Imposition of the price floor and exclusion from the MSCI Emerging Markets index along with the global financial crisis had caused a massive exodus (US\$446 mn) of foreign portfolio investments from the equity market in 2008. However, eventually macro recovery and inclusion in MSCI Frontier Market Index encouraged offshore investments to return to Pakistan with a net foreign inflow of US\$ 291 million in the first half of fiscal year 2010. With the interest rates in most developed countries hitting rock bottom and Pakistan stock market trading at a significant discount to the regional markets, it is expected that foreign portfolio investment will continue to flow in the local market.

Performance Review

The KSE-Meezan Index - 30 (KMI-30) serves as the benchmark for Al Meezan Mutual Fund (AMMF). The Fund posted a return of 30.58% in the first six months as compared to its benchmark which rose by 29.17% and hence outperforming it by 1.41%

Al Meezan Mutual Fund returned remarkable performance in the six months ended 31 December 2009, as compared to the same period last year. The Fund posted a total income of Rs. 386 million in the period under review, up from a total loss of Rs. 973 million incurred in the first half of the previous year. The income comprised primarily of the realized gains on investments, which totalled to Rs. 182 million, and unrealized gains on investment of Rs. 152 million. Dividend Income contributed Rs. 48 million

to the total figure. After adjusting for expenses worth Rs. 17 million, the net income of the fund aggregated to Rs. 369 million, which translates into net earnings of Rs. 2.68 per share. This is a complete turnaround from last year's performance when the fund incurred a net loss of Rs. 7.2 per share. The net assets of the Fund showed a healthy gain of 19%, ending the period at an aggregate value of Rs. 1.39 billion, up from Rs. 1.17 billion at the end of June 2009. The fund has also approved an interim 10% cash dividend for its shareholders for the year ending June 30, 2010.

Outlook

After a turbulent 2008, Pakistan's economy has seen a steady turnaround in the year 2009 and all major economic indicators are pointing to greater stability ahead. The S&P rating upgrade has accelerated a pickup in foreign investment in Pakistan's equity market. Since June 2009, when KSE-100 index entered the MSCI Frontier Index, nearly US\$315 million has flowed into the stock market, reversing 18 months of capital flight. The significant build up of foreign exchange reserves has also improved confidence in country's ability in meeting its commitments.

One of the major issues for the equity market is the introduction of a margin financing product that hopefully would be launched in soon. The other major issue that investors will likely deal with is the introduction of capital gains tax on stocks in the next federal budget. Currently, Pakistan's capital market is trading at a P/E multiple of around 7.2, which is almost at a 47% discount to the regional markets. This makes KSE an attractive option for the foreign investors, who are expected to continue their investment at the local bourse.

Acknowledgement

We take this opportunity to thank our valued investors for reposing faith in Al Meezan Investments and making it the largest Shariah Compliant asset management company in Pakistan. We also thank the regulator, Securities and Exchange Commission of Pakistan, Central Depository Company of Pakistan and management of Karachi Stock Exchange for their support. We would also like to thank the members of the Shariah Supervisory Board of Meezan Bank for their continued assistance and support on shariah aspects of fund management.

AUDITORS' REPORT TO THE SHAREHOLDERS ON REVIEW OF CONDENSED INTERIM FINANCIAL INFORMATION

Introduction

We have reviewed the accompanying condensed interim statement of assets and liabilities of Al Meezan Mutual Fund Limited (the Fund) as at December 31, 2009 and the related condensed interim income statement, condensed interim distribution statement, condensed interim statement of movement in unitholders' funds and condensed interim cash flow statement together with the notes forming part thereof for the six months period then ended (here-in-after referred to as the 'condensed interim financial information'). The Management Company is responsible for the preparation and presentation of this condensed interim financial information in accordance with the approved accounting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on this condensed interim financial information based on our review. The figures of the condensed interim financial information for the quarters ended December 31, 2009 and 2008 have not been reviewed as we are required to review only the cumulative figures for the six months period ended December 31, 2009.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'. A review of the condensed interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information is not prepared, in all material respects, in accordance with the approved accounting standards as applicable in Pakistan for interim financial reporting.

This condensed interim financial report also include condensed interim income statement, condensed interim distribution statement, condensed interim statement of movement in equity and reserves per share, condensed interim statement of changes in equity and condensed interim cash flow statement for the quarter ended December 31, 2009 which is not subject to a review.
- 3.3 The comparative statement of assets and liabilities presented in this condensed interim financial report as at June 30, 2009 has been extracted from the audited financial statements of the Fund for the year ended June 30, 2009 whereas the condensed interim income statement, condensed interim distribution statement, condensed interim statement of movement in equity and reserves per share, condensed interim statement of changes in equity and condensed interim cash flow statement, for the six months period ended December 31, 2008 were subject to review but not audited. The comparative condensed interim income statement, condensed interim distribution statement, condensed interim statement of movement in equity and reserves per share and condensed interim cashflow statement for the quarter ended December 31, 2008 included in this condensed interim financial report were not subjected to a review.
- 3.4 Standards, amendments and interpretations effective from July 1, 2009:
- a) IFRS 8, 'Operating segments'. IFRS 8 replaces IAS 14 and requires a 'management approach', under which segment information is presented on the same basis as that used for internal reporting purposes. The segment information is therefore reported in a manner that is more consistent with the internal reporting provided to the fund manager. The adoption of this standard would not have any impact on the condensed interim financial report.
 - b) IAS 1 (revised), 'Presentation of financial statements'. The revised standard prohibits the presentation of items of income and expenses (that is, 'non-owner changes in equity') in the statement of changes in equity. It requires non-owner changes in equity to be presented separately from owner changes in equity. All non-owner changes in equity are required to be shown in a performance statement, but entities can choose whether to present one performance statement (the statement of comprehensive income) or two statements (the income statement and statement of comprehensive income). Where entities restate or reclassify comparative information, they are required to present a restated statement of financial position as at the beginning comparative period, in addition to the current requirement to present statements of financial position at the end of the current period and comparative period. The Fund has applied IAS 1 (revised) from July 1, 2009, and has elected to present one statements (the income statement and statement of comprehensive income).

- c) IAS 39 (amendment), 'Financial instruments: Recognition and measurement'. The amendment was part of the IASB's annual improvements project published in May 2008. The definition of financial asset or financial liability at fair value through profit or loss as it relates to items that are held for trading was amended. This clarifies that a financial asset or liability that is part of a portfolio of financial instruments managed together with evidence of an actual recent pattern of short-term profit taking is included in such a portfolio on initial recognition. The adoption of the amendment did not have a significant impact on the Fund's condensed interim financial report.
- d) IFRS 7 (amendment) 'Financial instruments: Disclosures'. The amendment requires enhanced disclosures about fair value measurement and liquidity risk. In particular, the amendment requires disclosure of fair value measurements by level of a fair value measurement hierarchy. The adoption of the amendment results in additional disclosures, which would be detailed in the financial statements for the year ending June 30, 2010, but does not have an impact on the Fund's financial position or performance.

Certain interpretations to the approved accounting standards are mandatory for accounting periods beginning on or before July 1, 2009 but are considered not to be relevant or have any significant effect to the Fund's operations and are therefore not disclosed in these condensed interim financial statements.

3.5 Standards, interpretations and amendments to published approved accounting standards that are not yet effective:

Certain standards, amendments and interpretations to approved accounting standards are effective for accounting periods beginning on or after July 1, 2009 but are considered not to be relevant or have any significant effect on the Fund's operations and are therefore not detailed in this condensed interim financial report.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and the methods of computation adopted in the preparation of this condensed interim financial report are the same as those applied in the preparation of the financial statements for the year ended June 30, 2009 except for the change in accounting policy as referred to in note 4.2 below:

4.1 Change in an accounting policy

IAS 1 (revised), 'Presentation of financial statements'. The revised standard prohibits the presentation of items of income and expenses (that is, 'non-owner changes in equity') in the statement of changes in equity. It requires non-owner changes in equity to be presented separately from owner changes in equity.

The Fund has applied IAS 1 (revised) from July 1, 2009, and has elected to present one performance statement. As a result non-owner changes in equity which were previously credited directly in the statement of movement in shareholders' fund and the distribution statement are now shown as other comprehensive income in the performance statement (referred to as income statement in this condensed interim financial report). The change in presentation has not affected the values of the net assets of the Fund for either the current or any of the prior periods and hence restated statement of assets and liabilities has not been presented.

6. CONTINGENCIES

Through Finance Act, 2008 an amendment was made in section 2(f) of the Workers' Welfare Fund Ordinance, 1971 (the WWF Ordinance) whereby the definition of 'Industrial Establishment' has been made applicable to any establishment to which the West Pakistan Shops and Establishment Ordinance, 1969 applies. As a result of this amendment it can be construed that all Collective Investment Schemes (CIS) whose income exceeds Rs 0.5 million in a tax year may have been brought within the purview and scope of the WWF Ordinance, thus rendering them liable to pay two percent of their total income (as defined in section 4 of the Workers' Welfare Fund Ordinance, 1971). However, during the period the Mutual Funds Association of Pakistan (MUF AP), of which the Management Company is a member, has filed a constitutional petition in the High Court of Sindh (SHC) praying it to declare that CIS are not liable to pay contribution to the WWF on the grounds that CIS do not have any workers or employees. The legal proceedings in respect of the aforementioned petition are currently in progress and the outcome cannot be reasonably ascertained.

The Management Company based on the advice of the MUFAP's legal counsel, is confident of a favorable decision and accordingly no provision for the aforementioned liability which has an impact of Rs 0.05 per share as of December 31, 2009 has been made in this condensed interim financial report.

There were no other contingencies and commitments outstanding as at December 31 and June 30, 2009.
