REPORT OF THE DIRECTORS OF THE MANAGEMENT COMPANY

The Board of Directors of Al Meezan Investment Management Limited, the Management Company of Meezan Islamic Fund, is pleased to present the audited accounts of Meezan Islamic Fund (MIF) for the quarter ended September 30, 2007.

Market Review

The Stock Market during the first quarter of the financial year was marked by volatility in trend and turnover. The market movements during the quarter can be segmented into three distinct phases; the positive, the slump and the recovery. Overall, the KSE-100 index during the quarter shed 419 points or 3% to finish the quarter at 13,353 with an average daily turnover of 250 mn shares.

The new financial year started on a positive note and the Index continued its upward momentum from previous year, making an all time high of 14,202 on July 13, 2007. However this upward movement failed to maintain itself primarily due to rising political uncertainty in the country. News regarding failed talks between leading political parties and the Government, suicidal attacks after the Lal Masjid operation, uncertainty regarding President's re-election and significant outflows of foreign funds led to a decline of 1,200 points in just one week, shedding a total of 1,500 points (11%) during the slump phase and making a low of 11,958 on August 27, 2007. The market completely ignored the robust profitability and handsome dividend payouts by the companies. Moreover, sub prime mortgage crisis in the US which led to persistent sell off in equity markets globally, further weakened market sentiment and contributed to this downtrend. However, later in September positive developments on political front and strong fundamentals helped in an impressive recovery of 1,400 points from the lowest level. Moreover, foreign funds which had divested their holdings during first couple of months started to invest in Pakistan again as foreign investors realized the fact that Pakistan's Capital Markets are not likely to be influenced by the sub prime crisis which had mostly affected the developed countries.

KSE-100 Index Performance during FY08

Operational Review

Meezan Islamic Fund's (MIF) performance during the first quarter FY 08 was much better than the corresponding period last year as it earned Rs. 371 million during the quarter.

For the quarter ended September 30, 2007, the fund earned gross income of Rs. 185 million, main contributors of which were dividend income of Rs. 64 million, capital gain of Rs. 29 million and revaluation surplus of Rs. 78 million. After accounting for expenses of Rs. 35 million and element of income/ capital gain on purchase and sale of units of Rs. 220 million, the fund recorded a net profit of Rs. 371 million for the quarter. The net assets of MIF increased from Rs. 3,679 million at the beginning of the quarter to Rs. 4,565 million by the end of it, thus maintaining its position of being the largest Open End Equity fund in the private sector.

During the quarter, units amounting to Rs. 976 million were issued and units amounting to Rs. 240 million were redeemed, resulting in net inflow of Rs. 736 million.

Investment Policy

MIF is a Shariah compliant equity fund and therefore its performance is linked with the performance of equity markets in Pakistan. However, as the fund manager, Al Meezan Investments actively manages the fund with an aim to provide maximum risk adjusted total return to the investors. This involves a combination of stock selection, sector allocation and asset allocation. Therefore, the fund manager aims to reduce exposure to equities in times when the market risk increases.

Mutual Fund Rating

Pakistan Credit Rating Agency (PACRA) and JCR-VIS Credit Rating Company have assigned their respective highest possible ratings for mutual funds to Meezan Islamic Fund. MIF has been rated 5-Star by both the companies which denotes superior performance of MIF versus its peers. It is important to note that while PACRA's rating is within the Islamic Funds category, JCR-VIS has assigned 5-Star rating to MIF in the overall Equity Funds category. We believe that this has been possible due to the untiring efforts of the management of Al Meezan Investments, the fund manager/ Management Company of MIF.

Future Outlook

As the political uncertainty starts to subside we remain hopeful of the future prospects of the stock market in general and of Meezan Islamic Fund in particular. While minor corrections in the market may continue to take place in the short term, we believe that the long term direction would continue to be guided by the overall economic growth in the country and increasing foreign funds inflows on the back of positive investment and economic outlook of the country.

We thank all our investors who have placed their confidence in us. We also thank the regulator, Securities and Exchange Commission of Pakistan, MIF's trustee, Central Depository Company of Pakistan and the management of Karachi Stock Exchange for all their support and guidance.

For and on behalf of the Board

Karachi.
