REPORT OF THE DIRECTORS OF THE MANAGEMENT COMPANY

The Board of Directors of Al Meezan Investment Management Limited, the management company of Meezan Cash Fund (MCF) is pleased to present the un-audited financial statements of the fund for the nine months ended March 31, 2010.

Economic Review

Pakistan has shown gradual recovery and improvement on the macroeconomic front in the first nine months of fiscal year 2010. Average year-on-year inflation during the period eased off to 11.28%, which averaged 23.03% during the same period last year. The release of funds from IMF and improved balance of trade numbers has provided a strong impetus to the economy. As a result, foreign exchange reserves increased from US\$ 11.9 billion in June 2009 to US\$ 14.94 billion at the end of March 2010. This helped in stabilizing Pak Rupee against US Dollar, which depreciated by 3.2% in the nine months of fiscal year compared to depreciation of 15% in the corresponding period last year. Moreover, remittance inflows made new records, with nine month figure totaling to US\$ 6.55 billion, providing crucial support to the balance of payment situation.

On domestic front, tax collection for the period was approximately Rs. 903 billion, which helped Government of Pakistan limit its incremental borrowing from the State Bank to Rs. 64 billion at the end of March 2010 from Rs. 88 billion in the corresponding period last year. In view of declining inflation, State Bank reduced the policy rate by 150 basis points to 12.5% in November 2009. Moreover, to meet IMF requirements and to stabilize interest rates, the State Bank introduced an interest rate corridor, providing a reverse repo facility at 300 basis points below the repo rate. However, since inflation started to inch up from January 2010, the State Bank has remained cautious in easing the monetary policy.

The gradual improvement in Pakistan's risk perception has resulted in the yield of Pakistan Eurobond, maturing in 2016, to drop below 8% for the first time since May 2008. Likewise, the spread on Pakistan's 5 year credit default swap has also eased off to 775 basis points from over 5000 basis points in late 2008.

Money Market Review

With the beginning of new financial year, as inflation started easing off, the State Bank continued to ease monetary policy reducing the discount rate by another 150 basis points to 12.5% in first half of fiscal year 2010. However, State Bank maintained an unchanged policy stance throughout the past quarter.

The soft monetary stance resulted in six month KIBOR to decline by 35 basis points to close the nine months at 12.41%. However, six month T-bill cut off rate increased by 33 basis points to close at 12.34%. Moreover, the introduction of interest rate corridor stabilized the overnight call and repo rates within a narrow band of 11.5% to 12.5%. In the nineteen T-bill auctions conducted by the State Bank during the current fiscal year, a sum of Rs. 921 billion was mopped up from the market, while T-bills worth Rs. 645 billion matured in the same period.

To reduce government borrowing from State Bank and to promote Islamic mode of financing, State Bank conducted fourth Ijarah Sukuk auction in September 2009 and accepted Rs. 14.4 billion at the cut off rate of T-bill minus 5 basis points (current coupon of 12.25%). With this auction, the total size of Ijarah Sukuks issued increased to Rs. 42 billion. The government is also planning to make another Ijarah Sukuk issue before June 30, with a target issue size of Rs. 100 billion.

The following graph shows the trend in interest rates during the period under review:

Performance Review

Meezan Cash Fund (MCF) earned a total income of Rs. 222 million in the period under review. Profits from saving accounts at banks were the prime contributor to total income, thereby contributing Rs. 173 million. A sum of Rs. 39 million was generated from income on bank placements. On the expenses side, the fund incurred Rs. 26 million under various heads. For the period under review, the fund reported a net income of Rs. 291 million.

The net assets of the Fund showed a massive increase of 670% from Rs. 0.62 billion as on June 30, 2009 to Rs. 4.80 billion. The NAV per unit recorded an increase of 7.4%, after adjusting for two interim dividends of Rs. 1.75 and Rs. 1.5 per unit respectively to close the period at a value of Rs. 51.97. This translates into an annualized return of 10.11% for investors during this period.

Outlook

After a turbulent 2008, Pakistan's economy has seen a steady turnaround in 2009 with most economic indicators pointing to greater stability ahead. The improvement in economic and industrial activity will lead to improvement in corporate profitability and hence would reduce the corporate credit risk. Moreover, as the inflation is likely to remain high, interest rates will likely remain sticky on the higher side for the short term. MCF is well placed to benefit from the upturn in the economy and higher rates. On a medium to long term, however, as economy improves and the State Bank eases monetary policy, we expect the interest rates to marginally decline going forward.

Acknowledgement

We take this opportunity to thank our valued investors for reposing faith in Al Meezan Investments and making it the largest Shariah Compliant asset management company in Pakistan. We also thank the regulator, Securities and Exchange Commission of Pakistan, Trustee, Central Depository Company of Pakistan and management of Islamabad Stock Exchange for their support. We would also like to thank the members of the Shariah Supervisory Board of Meezan Bank for their continued assistance and support on Shariah aspects of fund management.

The Fund shall also keep an exposure in short-term instruments for the purpose of maintaining liquidity and to capitalise on exceptional returns if available at any given point in time. Under the trust deed all the conducts and acts of the Fund are based on shariah. MBL acts as its Shariah Advisor to ensure that the activities of the Fund are in compliance with the principles of shariah. The management company of the Fund is registered with the SECP as a Non-Banking Finance Company under the NBFC Rules.
- 1.3 The Fund is an open-end fund listed on the Islamabad Stock Exchange. Units are offered for public subscription on a continuous basis. - 1.4 Title to the assets of the Fund are held in the name of CDC as the trustee of the Fund.

2. BASIS OF MEASUREMENT

The transactions undertaken by the Fund in accordance with the process prescribed under the shariah guidelines issued by the Shariah Adviser are accounted for on substance rather than the form prescribed by the earlier referred guidelines. This practice is being followed to comply with the requirements of approved accounting standards as applicable in Pakistan.

3. STATEMENT OF COMPLIANCE

- 3.1 This condensed interim financial report has been prepared in accordance with the approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board as are notified under the Companies Ordinance, 1984, the requirements of the Trust Deed, the NBFC Rules, NBFC Regulations and the directives issued by the SECP.

Wherever the requirements of the Trust Deed, the NBFC Rules, NBFC Regulations or the said directives differ with the requirements of IFRSs, the requirements of the Trust Deed, NBFC Rules, NBFC Regulations or the said directives take precedence. The disclosures made in this condensed interim financial report have, however, been limited based on the requirements of the IAS 34: 'Interim Financial Reporting'

- 3.2 This condensed interim financial report comprises of the condensed interim statement of assets and liabilities as at March 31, 2010 and the condensed interim income statement, condensed interim distribution statement, condensed interim statement of movement in unit holders' fund, condensed interim cash flow statement and notes thereto for the nine months period ended March 31, 2010. 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and the methods of computation adopted in the preparation of this condensed interim financial report are the same as those applied in the preparation of the financial statements for the period June 5 to June 30, 2009.

5. PLACEMENTS

Placements carry expected profit at rates ranging from 11.00 % per annum to 11.50 % per annum and are due to mature from April 8, 2010 to May 22, 2010.

6. LOANS AND RECEIVABLES

The Fund has entered into Commodity Murabaha with Allied Bank Limited for a period of six months. The profit will be received at the rate of 11.55% per annum on maturity. The murabaha will mature on June 22, 2010.

7. CONTINGENCIES

Through Finance Act, 2008 an amendment was made in section 2(f) of the Workers' Welfare Fund Ordinance, 1971 (the WWF Ordinance) whereby the definition of 'Industrial Establishment' has been made applicable to an establishment to which the West Pakistan Shops and Establishment Ordinance, 1969 applies. As a result of this amendment it can be construed that all Collective Investment Schemes (CIS) whose income exceeds Rs 0.5 million in a tax year may have been brought within the purview and scope of the WWF Ordinance, thus rendering them liable to pay two percent of their total income (as defined in section 4 of the Workers' Welfare Fund Ordinance, 1971). However, during the period the Mutual Funds Association of Pakistan (MUFAP), of which the Management Company is a member, has filed a constitutional petition in the High Court of Sindh (SHC) praying it to declare that CIS are not liable to pay contribution to the WWF on the grounds that CIS do not have any workers or employees. The legal proceedings in respect of the aforementioned petition are currently in progress and the outcome cannot be reasonably ascertained.

The Management Company based on the advice of the MUFAP's legal counsel, is confident of a favorable decision and accordingly no provision for the aforementioned liability which has an impact of Rs 0.06 per unit as of March 31, 2010 has been made in this condensed interim financial report.

There were no other contingencies and commitments outstanding as at March 31, 2010 and June 30, 2009.
