Stock Market Review

The KSE100 index fell by 0.3% during the month of Jun14 to close at 29,652; volumes however picked and average daily turnover also stood at 137mn shares compared to 106mn shares in May'14. Some major political and security related developments in the country including militant attack at the Karachi airport, launch of operation Zarb-e- Azb in North Waziristan, standoff between the local police and the activists of Pakistan Awami Tehreek (PAT) in Lahore, rallies led by Imran Khan and Tahir-ul-Qadri in Bahawalpur and attack on a PIA's aircraft at the Peshawar Airport, kept investors at bay. Although the current PML (N) government enjoys a majority in parliament, factors listed above have created uncertainty regarding political stability in the short-term.

On the positive front, secondary market offerings for UBL and PPL were completed during Jun14, and USD542mn was raised through both these transactions. The UBL sell-off of 19.8% shareholding of the GoP was done at an 8% discount to the market price, with 30% oversubscription. Although there was healthy local participation, foreign funds picked up almost 80% of the shares. PPL's transaction generated more demand than expected, with over-subscription of more than 100% from the govt's offering of 70mn shares. As a result, the strike price came in at PKR 219/sh which was higher than the market close. This triggered a rally in other E&P's as well towards the end of the month, with OGDC and POL amongst the top performers.

Money Market Review

This month saw a relatively stable money market with T-bill/PIB yields and interest rates showing a range bound behavior. The market faced a mixed liquidity scenario evidenced by Rs. 122 billion worth of mop-ups and Rs. 199 billion worth of injections carried out via OMOs by the SBP. The 3 month KIBOR closed 1bp down at 10.17% while the 6 month KOBOR was unchanged at 10.17% in comparison to the previous month.

The shariah compliant end of the market finally saw the auction of a long awaited new Ijarah. The desperation for placement of excess liquidity was evident from Rs. 114 billion worth of participation against Rs. 49.5 billion worth of issue size and an ensuing cut off 200 bps below the 6 month T-bill yield whereby the new Ijarah yields below 8%. The market now expects the SBP to conduct more auctions to clear the back log of this excess liquidity in the Islamic market. Moreover, two T-bill auctions were conducted during the month whereby in total, Rs. 143 billion was accepted against a participation of Rs. 143 billion with major acceptance in the 3 months category (Rs. 82 billion at a cut off yield of 9.96%). A PIB auction was also conducted which saw a heavy participation and acceptance level once again; Rs. 210 billion was accepted against a participation of Rs. 211 billion (highest acceptance in 3 Yrs category: Rs. 180 billion at a cut off yield of 12.10%).

On the forex front, the rupee lost value in the interbank market where it closed 15 paises weaker at Rs. 98.85/\$ while in the open market, it closed 50 paises stronger at Rs. 99.40/\$.
