With AM2 rating which denotes high management quality, the company clearly stays well ahead of all its competitors in the Islamic asset management market in Pakistan.

Stock Market Review

KSE-100 index increased by 5.3% to close at 27,159 in March as compared to 3.7% decline in February 2014. The month of March saw volumes falter by 9% to average 215mn shares/day, while value traded rose by 24% MoM. Mutual funds & Banks/DFI's remained the biggest buyers with USD55mn, while Companies & Others were biggest sellers. Foreigners on the other hand sold securities worth USD 5mn.

After witnessing a dip in February, the market rebounded by 1.4k points in March on the back of improving macros and news of MSCI FM weight increase. As peace talks with TTP gradually progressed, hefty buying by a local mutual fund in early March set the tone for market's positive direction. With PKR appreciating 6.1% against the green-back, the month saw sector switching from this phenomenon. Resultantly, import dependent sectors such Pharma and Autos appreciated by double digits, while Exporters such as Textile stocks were the underperformers. Banks also gained in the month due to no change in and record participation in PIBs. Pakistan also received USD 1.5bn from a friendly country in March under Pakistan Development Fund (PDF).

Triggers ahead for the market include expected Eurobond issuance and 3G auction in April 2014, as well as the deadline for proposals by financial advisors on the secondary market offerings of OGDC, PPL, and UBL. Another positive update is expected from MSCI's index methodology change whereby the weight of Pakistan can potentially rise to 8.4%.

KSE-100 Index Performance

Money Market Review

The first half of this month saw a volatile money market with regards to yields and interest rates on account of a changed market expectation of a key rate cut which did not materialize and the DR was kept stable at 10% by the SBP via its bi-monthly MPS. The market faced a relatively tight liquidity scenario evidenced by Rs. 863 billion worth of discounting availed by various counters along with Rs. 520 billion worth of OMO injections conducted during the month. The 3MK and 6MK both closed at 10.18% which was 3bps and 1 bp up in comparison to the previous month.

This month passed by yet again without the announcement of a new Ijarah resulting in further appreciation of Ijarah prices, in turn driving the investment yields further down. Moreover, two T-bill auctions were conducted during the month whereby in total, Rs. 536 billion was accepted against a participation of Rs. 560 billion with major acceptance in the 12 months T-bills (Rs. 206 billion at a cut off yield of 9.99%). A PIB auction was also conducted which saw a record participation and acceptance level; Rs. 532 billion was accepted against a participation of Rs. 543 billion (highest acceptance in 3 Yrs category: Rs. 287 billion at a cut off yield of 12.09%).

On the forex front, the rupee gained value; in the interbank market it closed Rs. 6.38 stronger at Rs. 98.52/\$ while in the open market, it closed Rs. 5.40 stronger at Rs. 100.10/\$.
