Stock Market Review

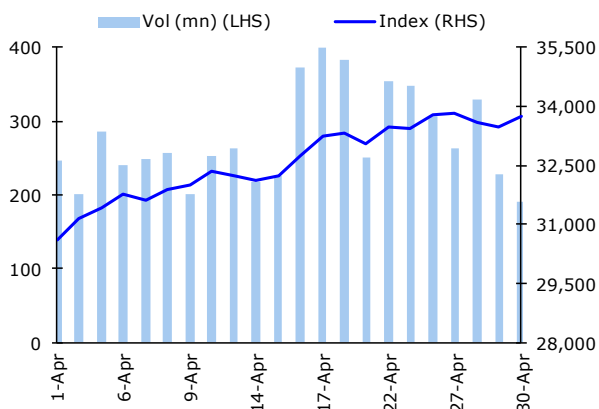

During the month under review, KSE 100 index made an exceptional recovery and went up by 11.6% to close at the level of 33,730. Monthly volumes averaged 276mn shares, significantly up by 60% MoM.

Positive macro developments, encouraging result season and easing concerns on geopolitical recovery were the major factors that led the sharp recovery at the KSE. One of the major developments during the month was the signing of USD 46 bn agreements with China during Chinese President’s visit to Pakistan. Similarly, overwhelming response on divestment of 41.5% stake in HBL at a strike price of Rs168/sh (USD 1.02bn) and private placement of 7% Efert at Rs 85/share further boosted the investor confidence.

During the month, foreigners remained active with net foreign inflow (FIPI) of USD 33.90 million. Fertilizer, automobile, banking, electricity and Construction stocks outperformed index while telecom and OMCs were underperformers.

Going forward, volatility in the market is expected to remain high over the upcoming monetary policy announcement followed by the budget in the first week of June. Foreign flows and the news regarding the new taxes on the budget need to be monitored carefully.

KSE-100 Index Performance

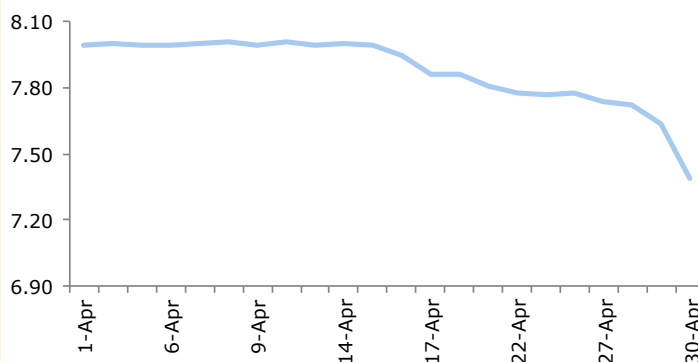

Money Market Review

The money market faced a relatively tight liquidity scenario during the month evidenced by Rs. 4 trillion worth of OMO injections carried out by the SBP coupled with Rs. 140 billion worth of discounting availed by various counters. Rs. 303 million worth of Mop-ups were also conducted while floor placements were Rs. 87.25 million. In April 2015, CPI clocked in at 2.1% YoY, higher than the consensus estimates, but was still below 2.5% YoY reading of March 2015. The market is presently anticipating another 50bps cut in the discount rate via the bi-monthly MPS due in May 2015. In line with these expectations, the 3MK and 6MK both closed 53bps and 60bps down at 7.36% and 7.31% respectively. T-bill and PIB yields also declined by 50-54bps and 30-40bps respectively.

During the month, three T-bill auctions were conducted whereby in total Rs. 476 billion was accepted against a participation of Rs. 1.4 trillion. A PIB auction was also conducted whereby Rs. 35 billion was accepted against a participation of Rs. 148 billion. Profit rates of National Savings Schemes (NSS) were also revised downwards by 48-72bps with effect from April 1, 2015.

On the forex front, the rupee in the interbank market closed Rs. 0.25 stronger at Rs. 101.70/\$ while in the open market, it closed Rs. 0.45 weaker at Rs. 102.95/\$.
