Stock Market Review

During the month of March, 2015, KSE 100 index took a major correction and declined by 10.1% to close at the level of 30,233 pts. Volumes also remained relatively low as average daily volume declined by 31% to 167 mn versus 240 mn shares a month earlier. One of the primary factors was major foreign selling during the month (USD 71.9 mn) resulting from liquidation of a global hedge fund. Other factors which contributed to market decline were 1) Regulatory actions to improve risk management and transparency of market participants and 2) Over leveraged positions.

There were positive developments on the economic front; current account showed encouraging improvement while the continuously falling CPI numbers (Feb'15: 3.24% and Mar:2.49%) paved way for another discount rate cut of 50 bps bringing it down to 8% during the month. The last week brought further positive news flow as Moodys upgraded Pakistan's rating outlook to Positive from Neutral and IMF's sixth review under EFF program concluded successfully. On the political front, Rangers' Operation in Karachi and rumors of positive developments on talks regarding judicial commission between PML (N) and PTI got attention of investors.

We are of the view that this market correction is probably temporary in nature while there is considerable improvement in macroeconomic indicators. We advise our valued investors to utilize this decline as an opportunity to take/increase exposure.

KSE-100 Index Performance

Money Market Review

In line with market expectations, the SBP in its recent Monetary Policy Statement (MPS) on March 21, 2015 slashed the Discount Rate (DR) by another 50bps bringing it down to 8%. Following this DR cut, the 3MK closed 22bps down @ 8.06% while the 6MK closed 28bps down at 7.96% as compare to the previous month. The market faced a relatively tight liquidity scenario during the months evidenced by Rs. 4.3 trillion worth of OMO injections carried out by the SBP coupled with Rs. 143 billion worth of discounting availed by various counters. The SBP also conducted various OMOs for the Islamic market whereby in total, Rs. 47.4 billion was mopped up at a weighted average yield of 7.39%.

Furthermore, during the month, the SBP conducted two T-Bill auctions and accepted Rs. 326.1 billion against a total participation of Rs. 857.4 billion with major acceptance in the 6 months category (Rs. 157.4 billion at a weighted average cut off yield of 7.97%). A PIB auction was also conducted which saw a healthy participation with a relatively lower acceptance level; Rs. 45.6 billion was accepted against a participation of Rs. 96.2 billion (highest acceptance in 5 yrs category: Rs. 15.075 billion at a cut off yield of 8.75%).

On the forex front, the rupee lost value; in the interbank market it closed 8 paisas weaker at Rs. 101.94/\$ while in the open market it closed 40 paisas weaker @ Rs. 102.5/\$.
