10. Risk Control in the Investment Process

- (a) The Management Company shall ensure that effective risk control measures are in place for the protection of the Unit Holders' interests.
- (b) The objective of the risk control process is to endeavor to monitor and manage the various types of risks, including market risks, credit risks and operational risks, with a view to achieving the investment objective of the allocation plan.
- (c) Exposure to the Equity Component shall be determined by the Fund Manager, which shall be selected based on the Management Company's outlook on the economy, the equity market and any other factor considered important by the Management Company towards effective discharge of its duties under the Regulations and this Supplementary Offering Document.
- (d) Based on a change in factors mentioned above, the Management Company may, at its discretion, change the allocation to the Equity component, as and when considered necessary.

11. TAXATION AND ZAKAT FOR UNIT HOLDER:

Unit holders may be liable to pay tax even though they may not have earned any gain on their investment as return of capital through distribution to investors is also taxable as per Income Tax Ordinance, 2001.

12. Risk Disclosure

Investors must realize that all investments in mutual funds and securities are subject to market risks. Our target return / dividend range cannot be guaranteed and it should be clearly understood that the portfolio

of the allocation plan is subject to market price fluctuations and other risks inherent in all such investments. The risks emanate from various factors that as mentioned in include, but are not limited to:

- (1) **Price Risk** - The price risk is defined as when the value of the Fund, due to its holdings in such securities rises and falls as a result of change in profit rates.
- (2) **Liquidity Risk** – Liquidity risk is the possibility of deterioration in the price of a security in the Fund when it is offered for sale in the secondary market.
- (3) **Settlement Risk** – At times, the Fund may encounter settlement risk in purchasing/ investing and maturing / selling its investments which may affect the Fund’s performance etc.
- (4) **Reinvestment Rate Risk** –In a declining profit rate economic environment, there is a risk that maturing securities or coupon payments will be reinvested at lower rates, which shall reduce the return of the Fund compared to return earned in the preceding quarters.
- (5) **Redemption Risk** - There may be special circumstances in which the redemption of Units may be suspended or the redemption payment may not occur within six working days of receiving a request for redemption from the investor.
- (6) **Distribution Risk** – Dividend distribution may also be liable to tax because the distributions are made out of the profits earned by fund and not out of the profits earned by each unitholder. Unitholders who invest in a fund before distribution of dividends may be liable to pay tax even though they may not have earned any gain on their investment as return of capital to investors upon distribution is also taxable.
- (7) **Shariah Non-Compliance Risk**- The risk associated with employing funds in investments that are not consistent with the Shariah as defined in the offering document of MSAF.
- (8) **Plan Specific Risks**
 - (a) The performance of the allocation plan may be affected by changes in risk associated with trading volumes, liquidity and settlement systems in equity and debt markets.
 - (b) Unit Holders are not being offered any guaranteed returns.
 - (c) The plan may not fulfill its Investment Objective.
 - (d) If the allocation plan for any reasons as determined by the Management Company is terminated, the NAV of the allocation plan will be subject to fluctuations in its asset value. The Net Asset Value, in this case, may be lower or higher than the Initial Investment Value. The Management Company will refund investors their investment in the allocation plan based on the NAV per Unit after deducting bank and administrative charges (if any).
 - (e) There may be times when a portion of the investment portfolio of the allocation plan is not compliant either with the investment policy or the investment criteria of the assigned ‘category’. This non-compliance may be due to various reasons including, adverse market conditions, liquidity constraints or investment – specific issues. Investors are advised to study the latest Fund Manager Report specially portfolio composition and financial statements of the Scheme to determine what percentage of the assets of the Scheme, if any, is not in compliance with the minimum investment criteria of the assigned category. The latest monthly Fund Manager Report as per the format prescribed by Mutual Funds Association of Pakistan (MUFAP) and financial statements of the Scheme are available on the website of the Management Company and can be obtained by calling / writing to the Management Company.
