REPORT OF THE DIRECTORS OF THE MANAGEMENT COMPANY

The Board of Directors of Al Meezan Investment Management Limited, the Management Company of Meezan Islamic Fund, is pleased to present the un-audited accounts of Meezan Islamic Fund (MIF) for the half year ended December 31, 2007.

Market Review

Stock Market's performance during first half of the financial year was marked by volatility both in price trend and turnover. KSE-100 Index started the half year at 13,772 and ended higher at 14,077, showing an appreciation of 305 points or 2.2%. Issues related to political instability in the backdrop of reinstatement of Supreme Court Chief Justice, presidential election and imposition of emergency mainly explained market's volatility during 1HFY08. Moreover, sub prime mortgage crisis in the US led to persistent sell off in global equity markets which further contributed to weak market sentiment and volatility domestically.

The new financial year initiated its run from 13,772 points and crossed 14,000 level barrier making a new high of 14,202 on July 13, 2007. However, the rally failed to maintain momentum primarily on account of rising political uncertainty in the country. News regarding failure of talks between leading political parties and the Government, worsening law and order situation, uncertainty regarding President's re-election and significant outflows of foreign funds led to a decline of 2,247 points (16%) in the KSE-100 Index. The Index touched the lowest level for the period under review of 11,955 on August 27, 2007. Afterwards, positive developments on the political front and strong fundamentals resulted in an impressive recovery in September and October. Market touched a new high of 14,787 in October. Subsequently the market saw a downturn triggered by attack on former PM Benazir Bhutto and later imposition of emergency.

From mid November some positive news flow regarding caretaker setup, announcement of election schedule, President Musharraf's oath as a civilian head of state and news of lifting of emergency in mid-December 07, led to a broader recovery of the market and KSE-100 Index touched an all time high of 14,815 on December 26, 2007. However, last week of December 07, witnessed a sharp decline in KSE-100 Index on account of assassination of former PM Benazir Bhutto and Index eventually closed the half year at 14,077.

Operational Review

Meezan Islamic Fund's (MIF) performance during the 1HFY08 was much better than the corresponding 1HFY07 last year as it earned a net profit of Rs. 472 million as compared to Rs. 194 million earned during 1HFY07.

For the six months ended December 31, 2007, the fund earned gross income of Rs. 350 million (1HFY07: Rs. 106 million), main contributors of which were dividend income of Rs. 125 million (1HFY07: Rs. 144 million) and capital gain (realized and unrealized) of Rs. 196 million (1HFY07: Loss of Rs. 50 million). After accounting for expenses of Rs. 78 million (1HFY07: Rs. 64 million) and element of income/capital gain on purchase and sale of units of Rs. 200 million (1HFY07: Rs. 153 million), the fund recorded net profit of Rs. 472 million (1HFY07: Rs. 194 million) for the six month period. The net assets of MIF increased from Rs. 3,679 million at the beginning of the six month period to Rs. 4,613 million by the end of it, thus consolidating its position of being the largest Open End Equity fund in the private sector. As on January 31, 2008 net assets of MIF had reached Rs. 5,238 million.

MIF's Performance vs KSE-100 and DJ-JS Pakistan Islamic Index

Investment Policy

MIF is a Shariah compliant equity fund and therefore its performance is linked with the performance of equity markets in Pakistan. However, the fund manager, Al Meezan Investments, actively manages the fund with an aim to provide maximum risk adjusted total return to the investors. This involves a combination of stock selection, sector allocation and asset allocation. Therefore, the fund manager aims to reduce exposure to equities in times when the market risk increases. While this may result in temporary underperformance as exposure is reduced in a rising market, it pays off when market corrects.

Ratings

Investors of MIF would be pleased to know that both the leading rating agencies operating in Pakistan, i.e. Pakistan Credit Rating Agency (PACRA) and JCR-VIS Credit Rating Company have assigned their respective highest possible ratings for mutual funds under Islamic Equity Fund category to Meezan Islamic Fund. MIF has been rated 5-Star by both the companies which denotes superior performance of MIF versus its peers. PACRA has awarded 5-Star rating to MIF for its superior short term (trailing 12 month period) and long term (trailing 36 month period) performance as compared to its peers. We believe that this has been possible due to the untiring efforts of the management of Al Meezan Investments, the Fund Manager/ Management Company of MIF.

JCR-VIS credit Rating Company has re-affirmed Asset Management Quality Rating of AMZ to the management company.

Future Outlook

We remain hopeful of the future prospects of the stock market in general and of Meezan Islamic Fund in particular. We expect the market to be volatile at the beginning of 2008 due to uncertainty relating to outcome of February 18 elections. However, once a new government is formed, political stability should lead to improved investor confidence and foreign inflows in the market. We continue to see value in Pakistani equities and remain positive on the basis of relative attractive valuations and continuing double-digit earnings growth of listed companies.

Acknowledgment

We take this opportunity to thank our valuable investors for reposing faith in Al Meezan Investments and making it the largest Shariah Compliant asset management company in Pakistan and for making MIF the largest Open End equity fund in the private sector. We also thank the regulator, Securities and Exchange Commission of Pakistan, the trustee, Central Depository Company of Pakistan and the management of Karachi Stock Exchange for all their support and guidance. Last but not the least, we would like to place on record our gratitude for Justice (Retd.) Muhammad Taqi Usmani, in special and other members of the Shariah Board of Meezan Bank in general, for their continued guidance on Shariah aspects of fund management.

AUDITORS' REPORT TO THE UNITHOLDERS ON REVIEW OF CONDENSED INTERIM FINANCIAL INFORMATION

Introduction

We have reviewed the accompanying condensed statement of assets and liabilities of Meezan Islamic Fund as at December 31, 2007 and the related condensed income statement, condensed distribution statement, condensed statement of movement in unitholders' funds and condensed cash flow statement together with the notes forming part thereof for the six months period ended December 31, 2007 (here-in-after referred to as the 'condensed interim financial information'). Management is responsible for the preparation and presentation of this condensed interim financial information in accordance with approved accounting standards as applicable in Pakistan. Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'. A review of this condensed interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information for the six months period ended December 31, 2007 is not prepared, in all material respects, in accordance with approved accounting standards as applicable in Pakistan.

The financial statements of Meezan Islamic Fund for the six months period ended December 31, 2006 and the year ended June 30, 2007 were respectively reviewed and audited by another firm of Chartered Accountants whose report dated February 15, 2007 and August 9, 2007 expressed an unqualified conclusion and opinion respectively on those financial statements.

REPORT OF THE DIRECTORS OF THE MANAGEMENT COMPANY

The Board of Directors of Al Meezan Investment Management Limited, the Management Company of Meezan Islamic Income Fund, is pleased to present the unaudited accounts of Meezan Islamic Income Fund (MIIF) for the half year ended December 31, 2007.

Market Review

The Money market at large was guided by concerns about inflation which continued to be the dominant pressurizing force on the economy. With oil on the boil and surging staple prices, inflation remained on a constant rise. Developing countries like Pakistan are facing a dilemma to control inflation without curtailing economic growth. With burgeoning fiscal deficit and inflation, SBP was under a lot of pressure to tighten the money supply which is exactly what it did. Discount rate saw a hike of 50 basis points in July and there was no sign of easing the monetary policy. The SBP, in addition to increasing the rate, also abolished CRR rates on long term deposits over 12 months to encourage savings growth, however the impact on the KIBOR was only trivial. The change in discount rate did cause an increase of 25-30bps in the KIBOR, but this movement only lasted for a couple of weeks after which the KIBOR went back to its previous levels. 6 month KIBOR finished 1HFY08 at 10%. However, the discount rate hike pushed up the treasury yields which were further supported by high government borrowing.

SBP conducted four PIB auctions during this period in which fresh 3, 5 and 10 year bonds were issued and 15, 20 and 30 year bonds were reopened. There wasn't any substantial variation in the yields and the weighted average yields for 1HFY08's last auction were 9.6344%, 9.8140% and 10.1961% for 3, 5 and 10 year bonds respectively.

On the Islamic Bond Market side, many new Sukuks were issued during the half year, further expanding the Sukuk market in Pakistan. The total amount of Sukuks issued and in process to date is around Rs79 billion which is indicative of the growing interest in the Islamic bond market.

Operations Review

MIIF during the half year ended December 31, 2007 earned a total income of Rs. 243 million, which consisted of Rs. 183 million earned on deposit with banks and Rs. 34 million of income accrued on investment in sukuk certificates. After accounting for expenses of Rs. 33 million, the operating income of the Fund remained at Rs. 209 million. The element of income of units sold less those in units redeemed during the period was of Rs. 76 million. The net income after accounting for above income and expenses was Rs. 285 million.

Investment Policy

MIIF is the first Shariah-compliant Income Fund in Pakistan. Objective of Meezan Islamic Income Fund is to provide investors with a safe and stable stream of halal income on their investments and to generate superior long term risk adjusted returns. The Fund also keeps exposure in short-term instruments for the purpose of maintaining liquidity and to capitalize on exceptional returns if available at any given point in time. The portfolio is geared towards maximizing annual income to the extent consistent with preservation of capital. The portfolio comprises of short-term, medium-term and long-term investments.

Asset Management Rating

JCR-VIS credit Rating Company has re-affirmed Asset Management Quality Rating of AMZ to the management company.

Future Outlook

In light of the persistent inflationary pressures on the economy SBP has further tightened its monetary stance with 50 bps increase in discount rate coupled with 100 bps increase in CRR for longer term deposits. These measures are likely to keep money market rates high in the coming months.

Acknowledgement

We take this opportunity to thank our valuable investors for reposing faith in Al Meezan Investments and making it the largest Shariah Compliant asset management firm in Pakistan. We also thank the regulator, Securities and Exchange Commission of Pakistan, MIF's trustee, Central Depository Company of Pakistan and the management of Karachi Stock Exchange for all their support and guidance. AUDITORS' REPORT TO THE UNITHOLDERS ON REVIEW OF CONDENSED INTERIM FINANCIAL INFORMATION

Introduction

We have reviewed the accompanying condensed statement of assets and liabilities of Meezan Islamic Income Fund as at December 31, 2007 and the related condensed income statement, condensed distribution statement, condensed statement of movement in unitholders' fund and condensed cash flow statement together with the notes forming part thereof for the six months period ended December 31, 2007 (here-in-after referred to as the 'condensed interim financial information'). Management is responsible for the preparation and presentation of this condensed interim financial information in accordance with approved accounting standards as applicable in Pakistan. Our responsibility is to express a conclusion on this condensed interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'. A review of this condensed interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information for the six months period ended December 31, 2007 is not prepared, in all material respects, in accordance with approved accounting standards as applicable in Pakistan.

The financial statements of Meezan Islamic Income Fund for the period December 13, 2006 to June 30, 2007 were audited by another firm of Chartered Accountants whose report dated August 9, 2007 expressed an unqualified opinion on those financial statements.
