REPORT OF THE DIRECTORS OF THE MANAGEMENT COMPANY

The Board of Directors of Al Meezan Investment Management Limited, the management company of Meezan Capital Protected Fund - I (MCPF-I) is pleased to present the un-audited financial statements of the fund for the half year ended December 31, 2010.

Brief Overview

During the first half of fiscal year 2011, Meezan Capital Protected Fund - I (MCPF-I) provided a return of 8.01% to its investors.

Economic Review

The Fiscal year beginning 1st July 2010 was pinned with hopes of further economic recovery with the GDP target of 4.5%. However, the whole situation changed with the devastating floods in the first quarter of 2011 with about one-fifth of the country being flooded and 10% of the population being directly affected. As a result all the macroeconomic targets are expected to be missed. The GDP growth target has already been revised down by 1-2% mainly because of sharply lower agricultural output growth which accounts for 21% of GDP and 45% of employment.

Floods caused a sharp increase in food inflation which led CPI to touch a 16-month high of 15.7% in September, 2010. To counter spiraling inflationary expectations, SBP proactively raised discount rate by a cumulative 150bps in 1HFY11 from 12.5% to 14.0%.

Floods and delay in structural reforms are likely to have an adverse impact on fiscal deficit which is now expected to cross 6.0% of GDP for fiscal year 2011 against IMF target of 4.7% of GDP. To finance increasing fiscal deficit, government borrowing from SBP has increased to approximately Rs. 272 billion while borrowing from commercial banks has increased to Rs. 178 billion during the period under review. However, tax revenue collection during 1FY11 (provisional) stood at Rs. 642 billion, up 10% year on year, short of target by about Rs. 11 billion.

While inflation and fiscal position have worsened, Pakistan's external position remained comfortable with balance of payment posting a surplus of US\$105 million in Jul-Nov10. Likewise, current account deficit also narrowed to US\$504 million in Jul-Nov10 by posting a surplus for the third consecutive month in November, on the back of upbeat remittances (up 16% YoY) and textile exports (up 23% YoY). Resultantly, this also supported dollar rupee exchange rate which moved in a narrow band of Rs. 85.2 to Rs. 86.3 vis-à-vis dollar.

During the entire period, government faced major resistance while addressing key structural issues in economy such as low tax to GDP ratio, higher subsidies, and excessive borrowings from central bank and implementation of Reformed GST. As a result, IMF delayed dates for fifth and sixth reviews to August 2011. With upward rally in crude price putting pressure on forex reserves and weak fiscal position, IMF's timely release of final payments would play a key role in fiscal stability of the economy.

Money Market Review

During the first half of fiscal year 2011, money market remained highly volatile and to normalize the liquidity situation, State Bank of Pakistan (SBP) regularly conducted Open market operations. With the resurgence of inflation, SBP changed its monetary policy stance after 20 months and increased the policy rate by 50 bps to 13% in its bimonthly monetary policy statement at the end of July 2010.

Further hike in inflation occurred as the country was hit by one of the worst floods in its history. Thus to curb the inflationary pressures, SBP went for further monetary tightening increasing the policy rate to 14%, with consecutive 50 bps hikes in September and November. As a result, KIBOR rates also increased, with six month rate increasing by 125 bps to close the half year at 13.62%. During the half year, SBP conducted 13 T-Bill auctions mopping up Rs. 1,268 billion against a target of Rs. 1,220 billion with a maturity of Rs. 1,120 billion. The cut off rate of six month T-Bill increased by 114 bps to close the half year at 13.40%.

Apart from borrowing from SBP, government also tapped other avenues to meet government expenditure. During the period, SBP conducted two auctions of Ijarah Sukuks worth Rs. 89 billion at coupon rate of six month T-Bill. .

The following graph shows the trend in interest rate during the period:

Equity Market Review

Stock market performed exceptionally well during the first half of financial year 2011 with the benchmark KSE-100 index rising by 24% to close at 12,022. However, trading volumes remained low due to imposition of capital gains tax (CGT) from 1st July and absence of leverage. Average daily trading volume in the first half declined by 47% to 92 million shares as compared to 173 million shares in the corresponding period last year.

Despite concerns related to CGT, the fiscal year started on a bullish note on the back of expectations of positive corporate results along with foreign interest, which helped the market to post an extraordinary return of 8.2% for the month of July. However, this rally was arrested by the unexpected 50 bps increase in the discount rate by State bank in its bimonthly monetary policy statement at the end of July. Later, the market performance was further derailed by the devastating floods in the country which adversely affected major sectors of the economy leading to 1-2% cut in the GDP growth target of 4.5%.

However, even after another 50 bps increase in discount rate in September, the investors shunned macroeconomic concerns and the sentiments turned bullish due to news about European Union allowing duty free import of textile related goods from Pakistan, above expectation corporate results with no negative impact of floods and increase in cement prices. As a result market crossed 11,000 level in November 2010. Further 50 bps hike in the discount rate at the end of November did not break the momentum of the market.

Towards the end of the period under review, sale of British Petroleum assets to United Energy Group at a better than expected price created excitement in oil and gas sector. Fertilizers also exhibited a bull run on the back of news of urea price hike. Moreover, continuous foreign interest, with net inflow of US\$ 249 million for the period under review, helped the KSE-100 to close at 12,022 and KMI-30 at 19,072.

Performance Review

Meezan Capital Protected Fund - I earned a total income of Rs. 55 million in the first half of the current fiscal year as compared to Rs. 59 million in the corresponding period last year. The earnings were primarily driven by profit received on Murabahah agreement amounting to Rs. 33 million. Cumulative gains on investments, both realised and unrealised amounted to Rs. 19 million. After deducting expenses worth Rs. 4 million, the fund recorded a net profit of Rs. 52 million.

The net assets of the fund as at the end of the period under review were Rs. 686 million and the net asset value (NAV) was Rs. 54.86 per unit. The NAV per unit during the period under review has witnessed an increase of 3.48%, up from a value of Rs. 56.84 at the beginning of the current fiscal year.

Outlook

Going forward, the key challenge for the government under the current political environment would be to introduce the reforms demanded by IMF. It is expected that inflation will remain on the higher side because of supply side shortage and hence State Bank may likely go for further monetary tightening in this fiscal year.

Although the implementation of capital gain tax has negatively impacted volumes, we believe that the introduction of the leverage product in the market will improve the liquidity position and attract the investors back to the equity market. On the basis of earnings multiples and dividend yields, Pakistan remains one of the cheapest markets. Pakistan's stock market is trading at a P/E multiple of 8.3x, which is almost at 38% discount to other frontier markets. This makes KSE an attractive option for foreign investors, who are expected to continue to make investments at the local bourses

Our outlook for the remaining half is cautiously optimistic. The management of Al Meezan is fully aware of the challenges that lie ahead and is taking all possible measures to face them.

Acknowledgement

We take this opportunity to thank our valued investors for reposing faith in Al Meezan Investments and making it the largest asset management company in the private sector in Pakistan. 1. LEGAL STATUS AND NATURE OF BUSINESS

- 1.1 Meezan Capital Protected Fund-I (the Fund) was established under a trust deed executed between Al Meezan as the management company and CDC as the trustee. The trust deed was executed on February 25, 2008 and was approved by the SECP under the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 (NBFC Rules) and the Non-Banking Finance Companies and Notified Entities Regulations, 2008 (NBFC Regulations). The registered office of the management company of the Fund, is situated at Finance and Trade Centre, Shahrah-e-Faisal, Karachi, Pakistan.
- 1.2 The Fund consists of two segments, a capital protection segment and an investment segment. The capital protection segment aims at protecting investors' capital by placing the assets of the segment in murabaha arrangement with a scheduled islamic bank having atleast 'A' rating at the time of the arrangement. The investment segment generally invests in high return / high risk investments with an objective of providing unitholders a higher return than the minimum protection provided by the capital protection segment. Under the trust deed all the conducts and acts of the Fund are based on shariah. Meezan Bank Limited (MBL) acts as its shariah adviser to ensure that the activities of the Fund are in compliance with the principles of shariah. The management company of the Fund is registered with the SECP as a Non-Banking Finance Company under the NBFC Rules.
- 1.3 The Fund is an open-end fund with maturity of three years and six weeks and is listed on the Karachi Stock Exchange. The Fund shall cease to operate on maturity. The units are transferable and can be redeemed by surrendering them to the Fund. The issuance of units has been discontinued since July 31, 2008. - 1.5 As per the offering document dated May 16, 2008, the Fund will cease to exist on June 29, 2011, the date on which the period specified for the Fund is expiring. Since the Fund was established for a specified period and the said period is expiring within the twelve months period from the balance sheet date, accordingly this condensed interim financial report has not been prepared on going concern basis. The management has assessed that, except for preliminary expenses and floatation costs, which will be amortised, this has not resulted in any impact on the carrying amount of the assets and the liabilities of the Fund as these are already stated at the amounts expected to be realised or settled.

7. CONTINGENCY

The Finance Act 2008 introduced an amendment to the Workers' Welfare Fund Ordinance, 1971 (WWF Ordinance). As a result of this amendment it may be construed that all Collective Investment Schemes / mutual funds (CISs) whose income exceeds Rs.0.5 million in a tax year, have been brought within the scope of the WWF Ordinance, thus rendering them liable to pay contribution to WWF at the rate of two percent of their accounting or taxable income, whichever is higher. In this regard, a constitutional petition has been filed by certain CISs through their trustees in the Honorable High Court of Sindh (the Court), challenging the applicability of WWF to the CISs, which is pending adjudication. However, without prejudice to the above, the Management Company made a provision for WWF contribution in the annual financial statements for the year ended June 30, 2010.

Subsequent to the year ended June 30, 2010, a clarification was issued by the Ministry of Labour and Manpower (the Ministry) which stated that mutual funds are not liable to contribute to WWF on the basis of their income. This clarification was forwarded by Federal Board of Revenue (FBR) (being the collecting agency of WWF on behalf of the Ministry) to its members for necessary action. Based on this clarification, the FBR also withdrew notice of demand which it had earlier issued to one of the mutual funds for collection of WWF. Notices of demand have also been issued to several other mutual funds and the matter has been taken up by the respective mutual funds with the FBR for their withdrawal on the basis of the above referred clarification of the Ministry. No such notice was received by the Fund.

On December 14, 2010, the Ministry has filed its response against the constitutional petition requesting the Court to dismiss the petition. According to the legal counsel who is handling the case, there is a contradiction between the aforementioned clarification issued by the Ministry and the response filed by the Ministry in the Court.

However, the Management Company believes that the aforementioned constitutional petition pending in the Court has strong grounds for decision in favour of the mutual funds. Accordingly, the management has reversed the liability recognised as at June 30, 2010 amounting to Rs 1.660 million, during the current period. The aggregate unrecognised amount of WWF as at December 31, 2010 amounted to Rs 2.666 million.
