REPORT OF THE DIRECTORS OF THE MANAGEMENT COMPANY

The Board of Directors of Al Meezan Investment Management Limited, the management company of Meezan Sovereign Fund (MSF) is pleased to present the un-audited financial statements of the fund for the quarter ended September 30, 2010.

Brief Overview

During the first quarter of fiscal year 2011, Meezan Sovereign Fund (MSF) provided an annualized return of 10.49% to its investors as compared to benchmark return of 8.02%.

Economic Review

After the consolidating year 2010, the new fiscal year was pinned with hopes of further economic recovery with the GDP target of 4.5%. However, the situation completely changed with the devastating floods in August 2010 in which about one-fifth of the country has been badly affected and 10 percent of the country population has been directly affected. Nearly two million homes have been destroyed or damaged and there is extensive damage to roads, telecom and energy infrastructure, crops and livestock. Precise estimates are not yet available, but it is clear that the costs of humanitarian relief and reconstruction will be in billions of dollars.

As a result all the macroeconomic targets are expected to be missed. The GDP growth target has already been revised down by 1-2% mainly because of sharply lower agricultural output growth estimates which accounts for 21 percent of GDP and 45 percent of employment. Average annual inflation is projected to rise to 13.5% in current fiscal year compared to 11.7% last year and the balance of payments is expected to weaken by US\$1.6 billion (0.8% of GDP) as compared to the pre-flood forecast.

To finance relief and rehabilitation work, government borrowed Rs. 220 billion from the State Bank of Pakistan (SBP) against International Monetary Fund's (IMF) target of zero net borrowing from the SBP. International aid for flood relief namely US\$ 451 million emergency aid by IMF and remittances helped to build the forex reserves which increased to all time high of US\$ 16.78 billion. The country saw the record monthly remittance inflow of US\$ 933 million during August. On domestic front, the provisional tax collection for the quarter was approximately Rs. 290 billion against a target of Rs. 295 billion.

Money Market Review

In the first quarter of fiscal year 2011, money market remained highly volatile and to normalize the liquidity situation, SBP regularly conducted Open market operations. With the resurgence of inflation, SBP changed its monetary policy stance after 20 months and increased the policy rate by 50 bps to 13% in its bimonthly monetary policy statement at the end of July 2010.

Expectation of further hike in inflation surfaced with the country hit by one of the worst floods in its history. Thus to curb the inflationary pressures, SBP went for further monetary tightening in September increasing the discount rate by another 50 bps to 13.5%. As a result, KIBOR rates also increased, with six month rate increasing by 90 bps to close the quarter at 13.27%. During the quarter, SBP conducted six T-Bill auctions mopping up Rs. 556 billion against a target of Rs. 535 billion with a maturity of Rs 499 billion. The cut off rate of six month T-Bill increased by 55 bps to close the quarter at 12.82%. Private sector credit growth remains muted, with banking ADR at a low of 64%. The following graph shows the trend of interest rates and inflation during the quarter under review.

Performance Review

Meezan Sovereign Fund (MSF) earned a total income of Rs. 21.33 million in the period under review. Profits from savings accounts at banks were the prime contributor to the total figure, contributing Rs. 11.08 million. A sum of Rs. 10.16 million was generated from income on sukuk certificates. After accounting for expenses of Rs. 2.6, the net income of the fund was 17.79 million.

The Ex-NAV of the Fund as at June 30, 2010 was Rs. 50.03 during the quarter ended September 30, 2010 the fund distributed Rs. 1.25 per unit. The annualized return of Fund remained at 10.49%.

Outlook

Going forward, investors will be focusing on the macro-economic impact of the floods and on the steps taken by the government for the rehabilitation and rebuilding of country's infrastructure. The determination of losses and the materialization of foreign pledges in this regard will take time to firm up. However, it is anticipated that inflation will remain on the higher side because of supply side shortage and hence State Bank may likely go for further monetary tightening. With a very high percentage of MSF portfolio invested in floating rate instruments, this will positively impact the return on portfolio of MSF.

Our outlook for the coming year is cautiously optimistic. The management of Al Meezan is fully aware of the challenges that lie ahead and is taking all possible measures to face them.

Acknowledgement

We take this opportunity to thank our valued investors for reposing faith in Al Meezan Investments and making it the largest Shariah Compliant asset management company in Pakistan. We also thank the regulator, Securities and Exchange Commission of Pakistan, Trustee-Central Depository Company of Pakistan and management of Islamabad Stock Exchange for their support. We would also like to thank the members of the Shariah Supervisory Board of Meezan Bank for their continued assistance and support on Shariah aspects of fund management.
