REPORT OF THE DIRECTORS OF THE MANAGEMENT COMPANY

The Board of Directors of Al Meezan Investment Management Limited, the management company of Meezan Balanced Fund (MBF) is pleased to present the un-audited financial statements of the fund for the nine months ended March 31, 2010.

Economic Review

Pakistan has shown gradual recovery and improvement on the macroeconomic front in the first nine months of fiscal year 2010. Average year-on-year inflation during the period eased off to 11.28%, which averaged 23.03% during the same period last year. The release of funds from IMF and improved balance of trade numbers has provided a strong impetus to the economy. As a result, foreign exchange reserves increased from US\$ 11.9 billion in June 2009 to US\$ 14.94 billion at the end of March 2010. This helped in stabilizing Pak Rupee against US Dollar, which depreciated by 3.2% in the nine months of fiscal year compared to depreciation of 15% in the corresponding period last year. Moreover, remittance inflows made new records, with nine month figure totaling to US\$ 6.55 billion, providing crucial support to the balance of payment situation.

On domestic front, tax collection for the period was approximately Rs. 903 billion, which helped Government of Pakistan limit its incremental borrowing from the State Bank to Rs. 64 billion at the end of March 2010 from Rs. 88 billion in the corresponding period last year. In view of declining inflation, State Bank reduced the policy rate by 150 basis points to 12.5% in November 2009. Moreover, to meet IMF requirements and to stabilize interest rates, the State Bank introduced an interest rate corridor, providing a reverse repo facility at 300 basis points below the repo rate. However, since inflation started to inch up from January 2010, the State Bank has remained cautious in easing the monetary policy.

The gradual improvement in Pakistan's risk perception has resulted in the yield of Pakistan Eurobond, maturing in 2016, to drop below 8% for the first time since May 2008. Likewise, the spread on Pakistan's 5 year credit default swap has also eased off to 775 basis points from over 5000 basis points in late 2008.

Money Market Review

With the beginning of new financial year, as inflation started easing off, the State Bank continued to ease monetary policy reducing the discount rate by another 150 basis points to 12.5% in first half of fiscal year 2010. However, the State Bank maintained an unchanged policy stance throughout the past quarter.

The soft monetary stance resulted in six month KIBOR to decline by 35 basis points to close the nine months at 12.41%. However, six month T-bill cut off rate increased by 33 basis points to close at 12.34%. Moreover, the introduction of interest rate corridor stabilized the overnight call and repo rates within a narrow band of 11.5% to 12.5%. In the nineteen T-bill auctions conducted by the State Bank during the current fiscal year, a sum of Rs. 921 billion was mopped up from the market, while T-bills worth Rs. 645 billion matured in the same period.

To reduce government borrowing from State Bank and to promote Islamic mode of financing, State Bank conducted fourth Ijarah Sukuk auction in September 2009 and accepted Rs. 14.4 billion at the cut off rate of T-bill minus 5 basis points (current coupon of 12.25%). With this auction, the total size of Ijarah Sukuks issued increased to Rs. 42 billion. The government is also planning to make another Ijarah Sukuk issue before June 30, with a target issue size of Rs. 100 billion.

The following graph shows the trend in interest rates during the period under review:

Equity Market Review

The equity market continued to perform well in the nine months ended March 31, 2010 as KSE-100 Index appreciated by 42.1% or 3,016 points to close the period at 10,178. This is in sharp contrast to the same period last year when the equity market fell by 55.8%. Our benchmark KSE - Meezan Index appreciated by 44.9% during the same period. There was a reasonable increase in daily average volume to 171.6 million shares compared to mere 80.2 million shares during the corresponding period last year.

At the beginning of the financial year, uncertainty about the discount rate cut by the State Bank in the monetary policy statement and late release of IMF tranche caused some concern in the minds of investors and hence the market moved at slow pace. However, it quickly regained its momentum with the discount rate cut, disbursement of IMF tranche, continuous decline in inflation and foreign inflows.

This momentum was arrested in mid October as uncertain law and order situation led to apprehension among investors. Also on the domestic political front, the uproar from different fronts relating to conditions attached to the Kerry Lugar Bill and controversy regarding National Reconciliation Ordinance (NRO) kept the market dull.

Later, investors welcomed the New Year with cautious note as uncertainty gripped the market on mechanism of capital gain tax and resignation of Mr. Shaukat Tarin as Finance Minister which kept the market in the dull phase with index hovering below 10,000 level and volume remained thin.

However, the lackluster behavior did not continue for long. Continuous inflow of foreign funds, improved law and order situation, appointment of Mr. Abdul Hafeez Shaikh as the Advisor to Prime Minister on Finance, coupled with improvements reported in macroeconomic indicators, such as workers' remittances and the continued reduction in the trade deficit, helped KSE 100 index to close above 10,000, for the first time since August 2008 (after 19 months). Another key factor behind the rally in the market was healthy corporate earnings from fertilizer, power and E&P sectors helping the market to close at 10,178 on March 31, 2010.

Foreign Flows

Imposition of the price floor and exclusion from the MSCI Emerging Markets index along with the global financial crisis caused a massive outflow (US\$446 million) of foreign portfolio investments from the equity market in calendar year 2008. However, eventually macro recovery and inclusion in MSCI Frontier Market Index in June 2009 encouraged offshore investors to return to Pakistan with a net inflow of US\$ 432 million in the nine months of fiscal year 2010. With interest rates in most developed countries hitting rock bottom and Pakistan's stock market trading at a significant discount to the regional markets, it seems that foreign investors have realized the growth potential in Pakistani market and foreign portfolio investment will continue to flow.

Performance of KSE - 100 Index

Performance Review

The Fund posted a return of 26.73% during the first nine months of Fiscal Year 2010 compared to benchmark return of 24.62% during the same period. Performance of MBF is benchmarked against 50% return on KMI 30 and 50% return on Islamic Bank deposit rates. During the period, Meezan Balanced Fund earned a gross income of Rs. 308 million. Realized gains on investments contributed Rs. 124 million, while unrealized gains on investment accounted for Rs. 81 million, of which Rs. 5.9 million were valuation losses on sukuks and Rs. 86.9 million comprised gains on equity securities. The Fund also created provision against profit on sukuk certificates worth Rs. 0.8 million. Dividend income for the period totalled Rs. 51 million, while profit on Sukuk certificates amounted to Rs. 35 million. During the period, Fund incurred expenses worth 28 million. As such, the net income for the Fund aggregated to Rs. 280 million.

The net assets of the Fund witnessed a decent increase of 15.4% during the period to reach a figure of Rs. 1.32 billion on March 31, 2010 despite a payment of Rs. 120 million as interim dividend for the year. The corresponding NAV per certificate of the Fund rose to Rs. 10.99 at the end of the period after being adjusted for a dividend of Re. 1 per certificate.

The Board has already approved provisioning policy according to which the provisioning has been done in the sukuk of Arzoo Textile Mills and Security Leasing. The restructuring process of both these sukuk is in process.

Outlook

After a turbulent 2008, Pakistan's economy has seen a steady turnaround in the year 2009 with most major economic indicators pointing to greater stability ahead. The S&P rating upgrade has accelerated a pickup in foreign investment in Pakistan's equity market. Since June 2009, when KSE-100 index entered the MSCI Frontier Index, nearly US\$ 431 million has flowed into the stock market, reversing 18 months of capital flight. The significant build up of foreign exchange reserves has also improved confidence in country's ability in meeting its financial commitments.

The consensus achieved by Parliamentary Committee on Constitutional reforms to be included in the draft of 18th amendment to the Constitution will bode positively for the political situation in the country as well as stock market.

One of the major issues for the equity market is the introduction of margin financing product which is expected to be launched soon. The other major issue that investors will likely deal with is the introduction of capital gains tax on stocks in the next federal budget. Currently, Pakistan's stock market is trading at a P/E multiple of around 8, which is almost at a 45% discount to other regional markets. This makes KSE an attractive option for foreign investors, who are expected to continue their investment at the local bourse.

Acknowledgement

We take this opportunity to thank our valued investors for reposing faith in Al Meezan Investments and making it the largest Shariah Compliant asset management company in Pakistan. We also thank the regulator, Securities and Exchange Commission of Pakistan, Trustee, Central Depository Company of Pakistan and management of Karachi Stock Exchange for their support. We would also like to thank the members of the Shariah Supervisory Board of Meezan Bank for their continued assistance and support on Shariah aspects of fund management.

For and on behalf of the Board

**NOTES TO THE CONDENSED
INTERIM FINANCIAL REPORT**
FOR THE NINE MONTHS AND QUARTER ENDED MARCH 31, 2010 (UN-AUDITED)

1. LEGAL STATUS AND NATURE OF BUSINESS

- 1.1 Meezan Balanced Fund (the Fund) was established as a closed-end scheme under a trust deed executed between Al Meezan as management company and CDC as the trustee. The trust deed was executed on June 15, 2004 and was approved by the SECP on September 8, 2004 under the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 (NBFC Rules). The registered office of the management company of the Fund, is situated in Finance and Trade Centre, Sharah-e-Faisal, Karachi, Pakistan.
- 1.2 The investment objective of the Fund is to generate long-term capital appreciation as well as current income by creating a balanced portfolio that is invested both in high quality equity securities and islamic income instruments such as term finance certificates, certificates of islamic investment, musharika certificates, islamic sukuk certificates and other shariah compliant instruments. Under the trust deed all the conducts and acts of the Fund are based on shariah. The management company has appointed MBL as shariah adviser to ensure that the activities of the Fund are in compliance with the principles of Shariah. The management company of the Fund is registered with SECP as a Non-Banking Finance Company under NBFC Rules.

2. BASIS OF MEASUREMENT

The transactions undertaken by the Fund in accordance with the process prescribed under the Shariah guidelines issued by the shariah adviser are accounted for on substance rather than the form prescribed by the earlier referred guidelines. This practice is being followed to comply with the requirements of approved accounting standards as applicable in Pakistan.

3. STATEMENT OF COMPLIANCE

These condensed interim financial statements have been prepared in accordance with the approved accounting standards as applicable in Pakistan, the Trust Deed, NBFC Rules, NBFC Regulations, 2008 and the directives issued by SECP. Approved accounting standards comprise of such International Financial Reporting Standards (IFRSs) as are notified under the provisions of the Companies Ordinance, 1984. Wherever the requirements of the Trust Deed, NBFC Rules, NBFC Regulations, 2008 and the said directives differ with requirements of these standards, the requirements of the Trust Deed, NBFC Rules, NBFC Regulations, 2008 and the said directives take precedence. The disclosures made in these condensed interim financial statements have, however been limited based on the requirements of the IAS 34: 'Interim Financial Reporting'.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted in the preparation of these condensed interim financial statements and the significant judgements made by management in applying the accounting policies and the key sources of estimation uncertainty are the same as those applied in the preparation of the financial statements as at and for the year ended June 30, 2009., except for the change in accounting policy as referred in note 4.1 below.

- 4.1 IAS 1 (revised), 'Presentation of financial statements'. The revised standard prohibits the presentation of items of income and expenses (that is, 'non-owner changes in equity') in the statement of changes in equity. It requires non-owner changes in equity to be presented separately from owner changes in equity.

The Fund has applied IAS 1 (revised) from July 1, 2009, and has elected to present one performance statement. As a result non-owner changes in equity which were previously credited directly in the statement of movement in unitholders' fund and the distribution statement are now shown as other comprehensive income in the performance statement (referred to as income statement in this condensed interim financial report). The change in presentation has not affected the values of the net assets of the Fund for either the current or any of the prior periods and hence restated statement of assets and liabilities has not been presented.

5.2.2.1 The nominal value of the diminishing musharika certificates is Rs 100,000 each.

6 CONTINGENCIES

Through Finance Act, 2008 an amendment was made in section 2(f) of the Workers' Welfare Fund Ordinance, 1971 (the WWF Ordinance) whereby the definition of 'Industrial Establishment' has been made applicable to any establishment to which the West Pakistan Shops and Establishment Ordinance, 1969 applies. As a result of this amendment it can be construed that all Collective Investment Schemes (CIS) whose income exceeds Rs 0.5 million in a tax year may have been brought within the purview and scope of the WWF Ordinance, thus rendering them liable to pay two percent of their total income (as defined in section 4 of the Workers' Welfare Fund Ordinance, 1971). However, during the period the Mutual Funds Association of Pakistan (MUFAP), of which the Management Company is a member, has filed a constitutional petition in the High Court of Sindh (SHC) praying it to declare that CIS are not liable to pay contribution to the WWF on the grounds that CIS do not have any workers or employees. The legal proceedings in respect of the aforementioned petition are currently in progress and the outcome cannot be reasonably ascertained.

The Management Company based on the advice of the MUFAP's legal counsel, is confident of a favorable decision and accordingly no provision for the aforementioned liability which has an impact of Rs 0.05 per certificate as of March 31, 2010 has been made in this condensed interim financial report.

There were no other contingencies and commitments outstanding as at March 31, 2010 and June 30, 2009.

7. TRANSACTIONS WITH CONNECTED PERSONS / RELATED PARTIES

The connected persons include Al Meezan being the management company, CDC being the trustee, Meezan Bank Limited being the shariah adviser of the Fund and holding company of the management company, directors and officers of the management company, Meezan Islamic Fund, Meezan Islamic Income Fund, Al Meezan Mutual Fund, Meezan Tahaffuz Pension Fund, Meezan Sovereign Fund, Meezan Capital Protected Fund - I and Meezan Cash Fund being the funds under the common management of the management company and Pakistan Kuwait Investment Company (Private) Limited.

Transactions with connected persons are in the normal course of business, at contracted rates and terms determined in accordance with market rates.

Remuneration payable to the management company and the trustee is determined in accordance with the provision of NBFC Rules, NBFC Regulations and the trust deed respectively.

Details of balances with connected persons and transactions with them for the period are as follows:
