REPORT OF THE DIRECTORS OF THE PENSION FUND MANAGER

The Board of Directors of Al Meezan Investment Management Limited, the management company of Meezan Tahaffuz Pension Fund (MTPF) is pleased to present the un-audited financial statements of the Fund for the three months ended September 30, 2011.

Economic Review

Since the start of fiscal year, the macroeconomic scenario of Pakistan has witnessed mixed trends. On one hand, the torrential rains and floods in Sindh along with withered Pakistan-US ties created an element of uncertainty that gripped the economy during the first quarter. While, on the other hand, the seemingly positive inflation figures and restricted government borrowing from central bank had supported the start of monetary easing cycle, where State Bank reduced the policy rate by 50bps, effective 1st August 2011. The devastating rains which hit the province of Sindh in the early months of 1QFY12 have caused damage to 1.5mn homes rendering 8.9 mn people shelter less with losses of Rs 270bn. This has raised concerns about achieving the estimated FY12 GDP target of 4.2%. The average inflation figure for Jul-Sept 2011 was recorded on a lower side, at 11.47%, primarily on account of the change in CPI methodology. This can, however, pave way for further ease in monetary policy by State Bank.

On the external front, despite the widened trade deficit, current account in 2MFY12 remained resilient recording a deficit of USD189mn vs. USD1,016mn deficit in the same period last year. One contributing factor remained the healthy inflow of remittances in the first three months which amounted to USD 3.4bn. However the impact of deferred import payments coupled with faltering relations with US and end of IMF program became visible in the form of sharp currency move as rupee lost 1.7% during 1QFY12 to Rs 87.45 per USD, touching an all time low level of Rs 87.60. On the domestic front, tax collection during the quarter stood at Rs 374bn, higher than the initial target, but that too could not give respite to the fiscal slippages resulting in excessive government borrowing from commercial banks cumulating to Rs 247bn during the quarter.

The IMF Standby Arrangement program expired on September 30, 2011 where the government decided not to seek an extension or a new loan due to comfortable balance of payments position. The economic managers of the country also had discussions with the IMF delegation where they assured that the country will continue to follow the path of economic reforms.

Money Market Review

In the first quarter of fiscal year 2011, money market remained highly volatile and to normalize the liquidity situation, State Bank of Pakistan (SBP) regularly conducted open market operations. However, a potentially achievable FY12 inflation target of 12% and restricted government borrowing from central bank have supported the start of monetary easing cycle, where central bank reduced the policy rate by 50bps, effective 1st August 2011, after a gap of eight months.

As a result, KIBOR rates also decreased, with six month rate decreasing by 53 bps to close at 13.25%. During the quarter, SBP conducted six T-Bill auctions mopping up Rs 852bn against a target of Rs 750bn with a maturity of Rs 595bn. The cut off rate of six month T-Bill decreased by 53 bps to close at 13.23%. Private sector credit growth remains muted, with banking ADR under 65%. The following graph shows the trend of interest rates and inflation during the quarter under review:

Subsequently, in the latest monetary policy announced by the State Bank on October 8, 2011, the discount rate was cut by 150 bps to 12%. Accordingly, the six month KIBOR and six month T-Bill yield were adjusted by 87 and 72 basis points respectively.

Equity Market Review

KSE -100 index posted a negative return of 5.9% during 1QFY12 and closed at a level of 11,762, marking the highest quarterly decline since December 2008. The index followed a range bound trajectory moving within a band of 12,576 and 10,842. However, during the same period, the bench mark index, Karachi Meezan Index (KMI-30) increased by 1.8% to close at the level of 21,313.

With the start of fiscal year, uncertainty regarding US economic slowdown and debt situation of some Euro zone countries resulted in massive selling in global equity markets, and had it repercussions in the local market as well. This coupled with the strained US-Pak relations and deteriorating political scenario in Karachi dampened the investors' sentiments. To improve the situation, the government launched a targeted operation in troubled areas of the city which helped in restoring the law and order situation.

Foreigners who own more than one-third of market free float remained net sellers of USD46mn worth of shares during 1QFY12. This proved to be the highest quarterly selling by foreigners in last nine quarters. Volumes also declined 30% QoQ as average daily volumes were recorded at 59 million shares during 1QFY12 as compared to 74 million shares in 4QFY11.

In addition to currency volatility, the news on the macro front also remained mixed during the quarter. The gradual build up in expectations of monetary easing towards the end of the quarter and improved FY 11 financial results, however, helped in countering the market pressures of international and domestic politics and index closed at the level of 11,762, up 920 points from the lowest level 10,842, it touched in August, 2011.

Performance Review

Meezan Tahaffuz Pension fund (MTPF) comprises of three sub funds namely Equity sub fund, Debt sub fund and Money Market sub fund. During the first three months of fiscal year 2012, Meezan Tahaffuz Pension Fund (MTPF) equity sub fund provided a return of 1.1% to its participants. The debt sub fund provided annualized return of 9.67% while the money market sub fund provided its participants with annualized return of 11.42%.

Performance review for each sub fund for the 1st quarter ended September 30, 2011:

Equity Sub Fund

The equity sub fund earned a total income of Rs.3 million. This mainly comprised of dividend income and unrealised gain on investments amounting to Rs. 2.4 million and Rs. 0.7 million respectively.

After accounting for expenses of Rs.1 million, equity sub fund recorded a net profit of Rs. 2 million. The net assets of the fund were Rs.189 million as at September 30, 2011. The net asset value (NAV) of the Fund as at the period end was Rs. 138.88.

Debt Sub Fund

The debt sub fund earned total income of Rs.4 million. This mainly comprised of Rs. 3 million of profit on sukuks and Rs. 0.8 million of profit earned on deposits with Islamic banks. After accounting for expenses of Rs.0.8 million, the debt sub fund recorded a net income of around Rs.3.5 million. The net assets of the Fund as at the period end were Rs.152 million. The net asset value (NAV) of the Fund at the period end was Rs. 147.33.

Money Market Sub Fund

The money market sub fund earned a total income of Rs.3.1 million for the three months ended September 30, 2011. The main contribution was from profit on bank deposits and profit on investments in sukuk certificates amounting to Rs. 1.5 million each. After accounting for expenses of Rs.0.5 million, the Fund earned a net income of Rs. 2.6 million. The net assets of the fund as at the period end were Rs. 98 million representing the net asset value (NAV) of Rs. 146.91 per unit.

Outlook

Going forward, the key challenge for the government under the current political environment would be to implement the reforms and fiscal discipline. In line with the government's commitment to keep SBP borrowing within limits, and as inflation has tapered off from its peak, we are of the view that that this decline in inflation will ease the pressure on interest rates and improve liquidity position. Hence, we expect the interest rates to ease off further in future.

Despite the implementation of capital gain tax which has negatively impacted the volumes, we believe the recent corporate results have shown decent growth, which will act as a trigger for investors to further increase their participation in stock market. On the basis of earnings multiples and dividend yields, Pakistan remains one of the cheapest markets, trading at a P/E multiple of 6.5x, which is almost at a 38% discount to regional markets. This makes KSE an attractive option for both the domestic and international investors.

Acknowledgement

We take this opportunity to thank our valued investors for reposing faith in Al Meezan Investments making it the largest asset management company in the private sector in Pakistan. We also thank the regulator, Securities and Exchange Commission of Pakistan, Trustee, Central Depository Company of Pakistan for their support. We would also like to thank the members of the Shariah Supervisory Board of Meezan Bank for their continued assistance and support on Shariah aspects of fund management.

For and on behalf of the Board

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED) FOR THE QUARTER ENDED SEPTEMBER 30, 2011

1. LEGAL STATUS AND NATURE OF BUSINESS

- 1.1 Meezan Tahaffuz Pension Fund (the Fund) was established under a trust deed executed between Al Meezan as pension fund manager and CDC as trustee. The trust deed was executed and approved by the SECP on May 30, 2007 under the Voluntary Pension System Rules, 2005 (VPS Rules). The registered office of the pension fund manager of the Fund, is situated in Finance and Trade Centre Sharah-e-Faisal, Karachi, Pakistan.
- 1.2 The Fund offers a saving mechanism where an individual saves from his / her income during work life in order to retain financial security and comfort in terms of regular income stream after retirement. The Fund initially comprises of three sub funds namely equity sub-fund, debt sub-fund and money market sub-fund. Participants are offered various investment allocation schemes depending on their investment horizon, return requirements, risk tolerance and any unique circumstances. Allocation scheme can be selected initially at the time of opening of account and subsequently at anniversary of the account. The contributions from participants are invested in various instruments belonging to different asset classes to get full benefits of risk minimisation through diversification.
- 1.3 The Fund has been formed to enable the participants to contribute in a diversified portfolio of securities, which are shariah compliant. Under the Trust Deed, all the conducts and acts of the Fund are based on shariah. The pension fund manager has appointed Meezan Bank Limited (MBL) as its shariah advisor to ensure that the activities of the Fund are in compliance with the principles of shariah.
- 1.4 The Fund is an unlisted pension scheme. Units are offered for public subscription on a continuous basis. The units are non-transferable and can be redeemed by surrendering them to the Fund at the option of the unit holders.

2. BASIS OF MEASUREMENT

The transactions undertaken by the Fund in accordance with the process prescribed under the shariah guidelines issued by the shariah adviser are accounted for on substance rather than the form prescribed by the aforementioned guidelines. This practice is being followed to comply with the requirements of approved accounting standards as applicable in Pakistan.

3. STATEMENT OF COMPLIANCE

- 3.1 This condensed interim financial report has been prepared in accordance with the approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board as are notified under the Companies Ordinance, 1984, the Trust Deed, the VPS Rules and the directives issued by the SECP.

Wherever the requirements of the trust deed, the VPS Rules or the said directives differ with the requirements of IFRSs, the requirements of the trust deed, the VPS Rules and the said directives take precedence.

- 3.2 These condensed interim financial statements comprise of the condensed interim Balance Sheet as at September 30, 2011 and the condensed interim income statement, condensed interim statement of movement in participants' sub funds, condensed interim cash flow statement, condensed interim contribution table, condensed interim number of units in issue and notes thereto for the quarter ended September 30, 2011.
- 3.3 The comparative balance sheet presented in these condensed interim financial statements has been extracted from the audited financial statements of the Fund for the year ended June 30, 2011 whereas the comparative condensed interim income statement, condensed interim statement of movement in participants' sub fund, condensed interim cashflow statement, condensed interim contribution table and condensed interim number of units in issue have been extracted from the financial statements for the quarter ended September 30, 2010.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and the methods of computation adopted in the preparation of this condensed interim financial report are the same as those applied in the preparation of the financial statements for the year ended June 30, 2011 except as follows.

4.1 Element of income / (loss) and capital gains / (losses) included in prices of units issued less those in units redeemed

During the year, the Fund has revised the methodology for determination of element of income / (loss) and capital gains / (losses) included in the prices of units issued less those in units redeemed. As per the revised methodology, element of income / (loss) and capital gains / (losses) included in the prices of units issued less those in units redeemed to the extent that it is represented by income earned during the year is recognised in income statement and to the extent that it is represented by unrealised appreciation / (diminution) arising during the year on available for sale securities is included in distribution statement. Previously, the element was recognised based on cumulative values of undistributed income and unrealised gain / loss on available for sale securities present in the net asset value of units.

The revised methodology, in the opinion of the management, would ensure that continuing unit holders' share of undistributed income remains unchanged on issue and redemption of units. The change did not have any impact on the net assets value (NAV) of the Fund. Had the management not revised its methodology, profit for the period would have been higher as follows:

- Equity sub fund	2.20 million
- Debt sub fund	1.56 million
- Money Market sub fund	0.54 million

5. BALANCES WITH BANKS

Charity payable	285	-	-	285
	<u>285</u>	<u>3</u>	<u>3</u>	<u>291</u>
				<u>260</u>

9. CONTINGENCIES

The Finance Act 2008 introduced an amendment to the Workers' Welfare Fund Ordinance, 1971 (WWF Ordinance). As a result of this amendment it may be construed that all pension funds under Voluntary Pension system (VPS) Rules, 2005 whose income exceeds Rs.0.5 million in a tax year, have been brought within the scope of the WWF Ordinance, thus rendering them liable to pay contribution to WWF at the rate of two percent of their accounting or taxable income, whichever is higher. In this regard, a constitutional petition has been filed by certain VPS through their trustees in the Honourable High Court of Sindh (the Court), challenging the applicability of WWF to the VPS, which is pending adjudication. However, without prejudice to the above, the Management Company made a provision for WWF contribution in the annual financial statements for the year ended June 30, 2010.

The Management Company believes that the aforementioned constitutional petition pending in the Court has strong grounds for decision in favour of the mutual funds. The aggregate unrecognised amount of WWF as at September 30, 2011 amounted to Rs.2.492 million.

10. EARNINGS PER UNIT OUTSTANDING - BASIC

	September 30, 2011			September 30, 2010
